ASC 1505

COMPACT VACUUM CLEANER

The ASC DS1505 ATEX Vacuum Cleaner is a compact vacuum unit equipped with a side channel pump which is installed directly on the top of the machine. The ASC 1505 Vacuum Cleaner is suitable to collect many types of solid and dusty materials and can work continuously with the addition of a liquid lever sensor, which gives the ASC DS1505 Vacuum Cleaner the option to collect liquids.

Introducing the ASC Sabilia DS1505, a compact, versatile, and powerful vacuum cleaner designed for efficient material collection in various industrial environments. It's a compact vacuum cleaner with Zone 22 Certification.

BENEFITS

- Excellent manoeuvrability due to its compact design, ideal for warehouse and industrial environments.
- Versatile applications, including light solids like dust and metal chips, as well as liquids.
- Enhanced safety features, including an additional shut-off unit and integral filter shaker.
- The Sabilia DS1505 is the perfect solution for industries requiring a reliable, efficient, and safe vacuum cleaner.

SUCTION APPARATUS

A suction apparatus with a side channel pump turbine installed directly on the machine head, allowing for the collection of solid, powder, and liquid materials.

SAFE CERTIFICATION

Intrinsically Safe certification with a 3kW power rating and 300mc/h airflow.

EASY MANOEUVRABILITY

Compact dimensions (765x745x1635mm) and lightweight design (95 kg) for easy manoeuvrability.

LOW NOISE LEVEL

Low noise level of 75 dB(A) and IP65 protection for reliable operation.
